What's Your Why

Answering the following questions will help you discover why you'd like to increase your Angel connection and learn how to channel messages from the Angels with confidence and ease.

1. How would channeling messages from the Angels more often benefit you?
2. How will increasing your Angel connection enhance your life?
3. Why would you like to learn how to do Angel Card Readings for yourself more clearly?

Remember to have fun with the questions and allow your higher self to guide you to some feel good reasons for yourself. They don't have to logical sense to you either. Let them be whimsical and free flowing.

I believe you absolutely have what it takes.

All of your dreams are important. Your ability to channel the Angels matters because as you clear and heal, others will benefit from your peaceful presence in their life.

The difference you are making in this world is bigger than you might feel or think. What brings you clarity brings healing to all.

See ya in Module 2's video, "How To Prepare To Hear The Angels Clearly".

May peace prevail in your heart and may you light the way for others so all may find their way back home.
